

Accidents Will Happen.

The wisest people can't avoid accidents, but all wise people keep fully prepared to deal with the accident if it does happen. No one should be without antiseptic, cotton, lint, liniment, and all the other requisites of that character. Our line of surgeons' accessories offers a wide selection of the very best in the market.

Putnam Street Drugstore.

A SICK PERSON'S LIFE

often depends on two men—the doctor and the druggist. When sickness comes you send for a physician—the very best you can find. He writes a prescription. Your recovery depends on that, and something else. That something else is the druggist. A good druggist uses good, pure, fresh drugs. He is an experienced man, who makes no mistakes. He fills prescriptions just like the doctor wants them filled.

No druggist, we believe, are more careful or competent than we are. If you bring your prescriptions here to be filled, we will give them the most careful attention. We will fill them right.

Our prices are moderate. The best service costs no more here than the next best elsewhere.

A Big Job.

One of the greatest improvements ever contemplated and carried out in this city by the B. & O. S. W. is now in progress. It is the filling of the great tract of low ground belonging to that company north of Butler street, between Second and Third.

The first train load of gravel used in the work arrived from Belpre Saturday morning. The rain consists of twenty-five cars of the latest patent, and are hauled by one of the largest work engines ever used on the branch. Each car is so arranged that by working a lever the sides swing outward and the load is released, so that the work of unloading does not require any great length of time. The gravel used is all loaded by the steam shovel at Belpre. The train makes from three to five trips per day and the amount of work carried is enormous.

Although the work will be carried on as rapidly as possible, it will require several weeks to finish it. When the ground close to the railroad tracks is filled up, side track will be laid to other parts of the ground and the work can be carried on without any extra handling of the gravel.

When the work is completed, all this tract of land that is now almost useless will be in condition for the B. & O. S. W. to greatly enlarge their yard area, which their increasing business in this city demands. The value of the property improved by the filling will be more than doubled.

River News.

There are strong indications that the rains of the past week will bring the river up to a stage that will open it to navigation of the larger craft and river men are beginning to assume active labors again. Coming at this late period in the season, the rise will no doubt be permanent for the winter. The stage of water at this point at nine o'clock last evening was 4 feet 7 inches and rising.

There were two boats up for Pittsburg yesterday, the Ben Hur in the morning and the Kanawha in the evening. Both were well loaded in both departments.

The Barnsdall is now making regular trips between here and Sistersville, leaving Marietta at 2 p. m. daily.

The Keystone State and Queen City were expected to leave Cincinnati yesterday for Pittsburg and the Virginia will leave Pittsburg Monday for Cincinnati. They all expect to enter their regular trade if the stage permits.

Milling Property Sold.

D. L. Torpy, receiver of the Marietta Milling Company, sold the property of the company Saturday to Col. T. W. Moore. The price paid was \$4,510.49, two-thirds of the appraised value of the property, which includes both real estate and personal.

Mr. Moore informs us that it is his intention to have some repairs made and to start the mill in active operation in the near future.

Mariettians Back Down.

The Marietta College second foot ball team did not fill their engagement here today with the P. A. C.'s. Word was received from them last night that they would not be here, but no reason was given as far as we can learn. The P. A. C.'s were greatly disappointed as they were prepared to put up a strong game. It looks like a square back-down on the part of the Mariettians.—Sentinel.

Convocation of Deans.

The Convocation of the Columbus Deanery of the Diocese of Southern Ohio will meet in St. Luke's church on the 13th and 14th of this month. About 20 of the clergy will be in attendance. An interesting programme has been prepared, which will be published later. The public are cordially invited to all the services and meetings.

High School Lyceum Course.

The holders of reserved seat season tickets for the High School course will be given Monday to have their tickets reserved at the Corner Drug Store for the first entertainment to be given, Thursday evening, Nov. 9, by the Central Grand Concert Co. The plat will be open Tuesday, Wednesday and Thursday for the sale of tickets.

Engagement Ended.

The Ferguson Bros. Comedy Co. closed a five nights engagement at the Auditorium last evening. During this engagement they played several good comedy dramas while their specialties were first-class for a show of the price. The company plays fairly well and the specialty work done by the Ferguson boys is great.

Cardinal Gibbons Coming.

Cardinal Gibbons, the distinguished Catholic prelate, will pass through Parkersburg on Monday at noon over the B. & O. He will be in a private car attached to train No. 3, and will be on his way from Baltimore to New Orleans.—Sentinel.

Voluntary Bankruptcy.

Columbus, O., Nov. 3.—Voluntary petition in bankruptcy was filed today by Thurlington W. Harvey, who gives Marietta as his present place of residence, but who until recently resided at Harvey, Cook county, Ill., where he was for a number of years at the head of the Harvey Steel Car and Repair Company. The schedule shows that he owes no debts "except" a judgment of \$11,738.31 in favor of Minerva P. Young, recorded in the Superior Court at Chicago, October 13, 1897, and the sum of \$191,567.74, which money represents money borrowed from Chicago banks.

His total indebtedness is scheduled at \$203,305.95. His assets consist of a gold watch, valued at \$100; wearing apparel, valued at \$200, and "certain possible or contingent reversionary rights under plats and condition in deeds to certain lots, blocks, streets and alleys and rights of way in the city of Harvey, Cook County, Ill., said rights being contingent upon possible sales of intoxicating liquors on said premises and possible vacation of streets and alleys in said city hereafter to take place, the same being of no present value whatever."

Personal and Local.

OUR BEARDED LADY.

Designing men, through alluring and cunningly worded advertisements, constantly endeavor to work upon the feelings of sick and ailing women by inviting them "to write to a woman" and secure a woman's sympathy. It is well to remember that the best sympathy is to be had at home and not from strangers, perhaps hundreds of miles distant. The object of the sick is to get well, and however precious sympathy may be, it never cures a seriously afflicted woman. While the sympathy of your milliner or dressmaker might be appreciated and be just as beneficial, if not more so, than sympathy from a stranger, yet it can not effect your cure if you are an ailing woman.

It is loudly proclaimed through the press that "a woman can best understand a woman's ailments," and on this ground sick women are invited to "write to a woman" and get the benefit of a woman's advice. The sort of "understanding of her ailments" wanted by a sick woman is a trained medical understanding. If a woman has this trained medical knowledge she understands woman's ailments not as a woman, but as a physician. If she is not a doctor she cannot understand the ailments at all, and cannot treat them successfully, because she lacks the necessary training.

As far as known, there is no regularly qualified woman physician connected with any proprietary medicine especially designed for women, and therefore qualified by learning and experience, to advise on questions of disease and its cure.

It is certain that there is no one, man or woman, connected with any "put-up" medicine for women, excepting only Dr. Pierce's Favorite Prescription, who, like Dr. Pierce, is a regular graduated and qualified physician, and who has, like him, devoted more than thirty years to the special study and treatment of diseases of women.

For more than thirty years Dr. R. V. Pierce, a regularly graduated doctor, has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. On his staff are nearly a score of regularly graduated, experienced, skilled physicians, each of whom is a specialist in his chosen class of diseases. Every letter addressed to Dr. Pierce as above, has prompt, conscientious attention, is regarded as sacredly confidential and is answered in a plain envelope so your private affairs are kept safe from prying eyes.
